H8S - The every application housing

Innovative weatherproof housing for indoor/outdoor installations. Made of high-resistance polycarbonate, it is provided with an innovative opening system which allows access to the interior. H8S has two mount options at the same time: regular (B9) or tough aluminium bracket (AB).

Its internal dimensions make it suitable for SMALL cameras equipped with fixed-focus lenses or all-board cameras

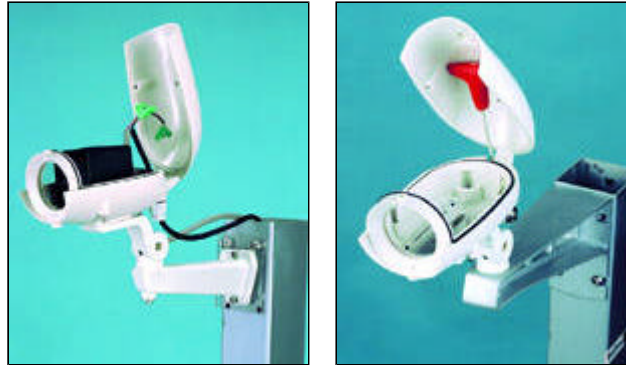

NO HEATING

NO COOLING

**Our housing translate in
ANTICORROSIVE AFFORDABLE NO
HEATER NO COOLER NO WORRIES.**
